**Leadership:** Product Ownership, Team Management

## EXPERIENCE

### CreamCollar EdTech

Frontend React Engineer

**April 2024 – Present**

*Chennai, Tamil Nadu*

- Contributed as a senior developer at a product-based EdTech company, building 6 large-scale responsive web apps using React, TypeScript, Redux, and Tailwind CSS, with dynamic form validation and REST API integration.
- Designed and implemented scalable UI architecture with state management, code splitting, lazy loading, and a shared component library.
- Owned the admin portal lifecycle, including deployment, bug resolution, and collaboration with cross-functional stakeholders.
- Mentored 3 interns through code reviews, task assignment, and technical guidance.

### Infosys Limited

System Engineer

**November 2021 – March 2024**

*Bengaluru, Karnataka*

- Trained and certified as a React developer during the initial 6 months of onboarding.
- Worked as a Web Automation Tester using Selenium, JavaScript, and Mocha for a Netherlands-based client in a service-based environment.
- Later contributed as a frontend developer by building a test case management portal using React and JavaScript for the same client.
- Collaborated with QA and development teams to align automation scripts and frontend features with project requirements

## EDUCATION

Bachelor of Engineering | **Anna University (Affiliated)**

*Vellore, Tamil Nadu* | **2016 – 2020**
